10. These lowering springs can only be used with shortened shock absorbers.  
11. Not suitable for cars with level adjustment.  
13. Not suitable for 4WD (four-wheel drive) cars.

46. Cut off one ring from the top of the bump rubber, always cut from the top.  
69. TUV only suitable with normal original bumpstop or sport original bumpstop. Do not shorten the bumpstops!! With the sport bumpstop the lowering will be a little more and also the driving will be better.  
75. Not suitable for cars with multilink rear suspension  
86. About 15mm less lowering for vehicles with sportsuspension.
